

RAYPLICKER

QUICKSHADE

Why use analog tooth color shades in a digital world?

"The shade analysis equipment makes this often-challenging procedure very predictable and easy to use anywhere in the oral environment."

- James Braun, DDS, MS

The Unique Digital Tooth Shade Analyzer

Reliable and Accurate Shade at Your Fingertips

The QuickShade digital tooth analyzer is a one of a kind digital tooth shade analyzing system. It's unique interface includes communication software setting it apart from others. Create ease in the workflow by switching from analog to digital shade matching.
